AGRIS STRATEGIC DIALOGUE WITH PROFESSIONAL INVESTORS & FINANCIAL INSTITUTIONS

On October 10 in Ho Chi Minh City, AgriS (HOSE: SBT) successfully hosted the AgriS Stakeholder Meeting 2025, bringing together over 130 professional investors and representatives from leading financial institutions, including securities firms, investment funds, banks, financial media, and both domestic and international partners.

The event is part of AgriS's annual Strategic Dialogue series, aiming to strengthen capital market engagement, promote information transparency, and foster a long-term partnership between the Company and the investment community.

Financial Institutions and Professional Investors participating directly in AgriS Stakeholder Meeting 2025.

Strategic Dialogue – Building the Foundation for Long-Term Partnership

At the event, Mr. Nguyen Duc Hung Linh - Vice President, Investment Division of AgriS emphasized the importance of establishing strategic partnerships with financial institutions, aiming to "shape sustainable capital flows for Vietnam's agriculture".

Mr. Linh emphasized: “The capital market serves as a source of funding and a foundation that drives innovation, collaboration, and the expansion of growth potential. AgriS aspires to become a model of a modern, transparent, and internationally competitive listed enterprise, committed to sustainable development values. We are seeking partners who share our vision and belief in a modern, efficient, and globally integrated production ecosystem.”

Mr. Nguyen Duc Hung Linh - Vice President of AgriS, shared insights on the Company’s capital mobilization strategy, a key driver for AgriS’s long-term growth plan

The dialogue took place in an open and engaging atmosphere, focusing on key strategic topics such as effective capital management, expansion of the investment ecosystem, and connection to global ESG capital flows. Participating institutions highly appreciated AgriS’s proactive approach in sharing data, demonstrating business performance, and reaffirming its strong commitment to international sustainability standards.

Record-Breaking Performance: SBT Share Price Reaches 8-Year High

A representative of AgriS’s Executive Board announced the Company’s business results for FY2024-2025, reporting net revenue of VND 28,482 billion, exceeding the target by 9%. Profit before tax reached VND 950 billion, surpassing the target by 6%, while profit after tax stood at VND 834 billion, marking a nearly 4% YoY growth. AgriS also maintained its leading position with a 46% market share in Vietnam’s sugar industry.

A key highlight of the event was the remarkable performance of SBT shares. By the end of FY2024–2025, SBT stock had surged over 80% compared to the beginning of the fiscal year, closing at VND 19,750 per share. In the new fiscal year, the growth momentum continued, reaching an 8-year high of VND 26,750 on October 10, 2025 - up nearly 130% since early 2025. SBT's market capitalization is now approaching VND 22,000 Billion, with average daily trading volume exceeding two million shares. This strong performance reflects investors' growing confidence in AgriS's growth strategy and management capability, particularly in the context of Vietnam's stock market being recently upgraded by FTSE Russell to Secondary Emerging Market status.

AgriS's Strategic Orientation for 2025-2030: Expansion – Digitalization – Globalization

Sharing the outlook on the Company's next growth phase, Mr. Thai Van Chuyen, Chief Executive Officer of AgriS stated that the development strategy for 2025-2030 will be focused on three strategic pillars: **Expansion of scale, Data-driven value chain, and Globalization of the agricultural ecosystem.** By 2030, AgriS aims to achieve VND 60,000 billion in revenue, a market capitalization of USD 2.7 billion, and sugar sales volume of 1.7 million tons, while expanding its presence across the Asia–Pacific region, focusing on key markets including Vietnam, Laos, Cambodia, Singapore, Australia, and Indonesia.

Alongside business expansion, the Company will accelerate the adoption of AI, blockchain, and big data across its entire agricultural value chain to enhance operational efficiency and international competitiveness. At the same time, AgriS will restructure its investment portfolio, **promoting IPOs of key business segments**, including agriculture, manufacturing, distribution, and technology to strengthen its financial capacity and foster cross-border partnerships.

"AgriS will continue to accompany our Shareholders, Investors, Farmers, and Partners on the journey to build a modern, sustainable, and globally integrated agriculture" affirmed Mr. Thai Van Chuyen, CEO of AgriS.

Mr. Thai Van Chuyen, Chief Executive Officer of AgriS, shared the Company's 2025–2030 development roadmap, aiming to position AgriS as a leading agricultural enterprise in the Asia-Pacific region.

AgriS enters the 2025-2030 period with a strong foundation and an ambition for breakthrough growth. With the support of professional investors and reputable financial institutions, the Company aims to build a leading high-tech agricultural group in the region, ensuring business efficiency while creating sustainable value for shareholders and partners across the value chain.

With a modern management framework, a fully digitalized ecosystem and a flexible capital strategy, AgriS continues to affirm its pioneering role in transforming Vietnam's agriculture, moving steadily toward becoming a leading enterprise in the Asia-Pacific region.
